INTRODUCTION

Lockport School District 91 implemented a proactive program of water testing at the Milne Grove School. Water sampling was conducted by David Johnson an Aires associate consultant on April 4, 2017. Mr. Geoffrey J. Bacci, II, PE designed the studied and developed this report.

All sampling methodology followed protocol required by The Lead in Drinking Water Testing Bill (LDWTB) an guidelines published by the Illinois Department of Public Health (IDPH). Detailed background information on testing requirements, methodology and lead health effects are included in the main report to the District that summarizes results and offers recommendations.

RESULTS

Field sheets identifying sample numbers and sample locations maps are included in Appendix I. Laboratory results are included in Appendix II.

The following locations at Milne Grove School exceeded 5 ppb. Locations that exceeded the EPA action level of 20 ppb are shown in **bold print:**

- **MG-S-02A: first draw at nurses office sink – 21.7 ppb**
- MG-S-02B: flush at nurses office sink – 7.74 ppb.

Parents with children in affected rooms that exceeded 5 ppb should be notified within 7 days per IDPH guidelines. Remaining results should be at minimum posted on the Districts website. The results of all samples should be e mailed to IDPH within 7 days. Sinks that exceed the EPA action level of 20 ppb should not be used for drinking water and labeled accordingly. Further investigation and corrective action is necessary to identify the lead source and identify corrective action to reduce lead levels.

PROFESSIONAL CERTIFICATION

Aires Consulting, a division of Gallagher Bassett Services, Inc. conducted this study in the interest of **Lockport School District 91** to assist in meeting environmental obligations and regulations. In this respect, we hope the results of this study are useful. *This study was not intended to include every environmental exposure that may be present at the facility; only those items specifically addressed in the report were evaluated.* If you have any questions concerning this study please let us know.

Respectfully Submitted,

Geoffrey J. Bacci, II, PE
